Art Unit: 1797

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Claims 1,3-8,10 and 12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lauer patent 5,690,829 in view of Haney patent 6,099,733 and Wheatley et al patent 4,176,057.

Claim 13 is rejected under 35 U.S.C. 103(a) as being unpatentable over Lauer patent 5,690,829 in view of Haney patent 6,099,733 and Wheatley et al patent 4,176,057 as applied to claims 1,3-8,10 and 12 above, and further in view of Randhahn et al patent 5,415,781.

Art Unit: 1797

Claims 14-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lauer patent 5,690,829 in view of Haney patent 6,099,733 and Wheatley et al patent 4,176,057 as applied to claims 1,3-8,10 and 12 above, and further in view of Zeiher et al patent 6,838,001 and Andou et al patent 6,432,310.

Claims 19-21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lauer patent 5,690,829 in view of Haney patent 6,099,733 and Wheatley et al patent 4,176,057 as applied to claims 1,3-8,10 and 12 above, and further in view of Jogand et al patent 6,036,867 as applied to claims 9 and 18 above, and additionally in view of Kragh patent 4,318,772.

Claim 22 is rejected under 35 U.S.C. 103(a) as being unpatentable over Lauer patent 5,690,829 in view of Haney patent 6,099,733 and Wheatley et al patent 4,176,057 as applied to claims 1,3-8,10 and 12 above, and further in view of Jogand et al patent 6,036,867 as applied to claims 9 and 18 above, and additionally in view of Harris et al patent 6,468,389.
